@HamdanMohammed  
We are proud to announce the launch of 'GITEX Europe 2025', which will make its debut in May 2025 in Berlin, Germany. This announcement solidifies GITEX as the world's biggest technology exhibition and highlights Dubai's commitment to fostering partnerships, collaboration, and global connections for a brighter future. Just last year, we celebrated the successful launch of GITEX Africa in Marrakech, Morocco, which was made possible by the dedication of the Dubai World Trade Centre team. Dubai continues to expand its horizons, pioneering new pathways towards an even brighter digital and technological future. 'GITEX Europe 2025' will help create a global tech path led by Dubai to connect international tech executives with new opportunities and partnerships.
